

Liverpool Hope University and Carmel College visits October 2025

Assistant Principal, Mr Karo Onowighose recently led a group of students on educational visits to **Liverpool Hope University** and **Carmel Sixth Form College**, St Helens as part of the school's careers education programme. The trip provided students with valuable insights into higher and further education opportunities, including campus life, course options, and progression pathways.

At Liverpool Hope University, our year 11 group toured the facilities and engaged with staff and students. At Carmel College, they explored A-level and vocational course offerings. The visit inspired many of our students to consider their future aspirations and helped them make informed choices about their next steps in education and career planning.
