

**Harmonize Academy** in Liverpool recently welcomed two esteemed visitors from Germany—Mrs. Schwab and Mr. Otto, Vice Principal of the German school *Auf dem Roddenberg*. The visit marked a significant milestone in international collaboration, as a special agreement was signed between both schools, laying the foundation for future exchanges, joint projects, and shared learning opportunities.

During their visit, Mrs. Schwab and Mr. Otto toured Harmonize Academy, engaging with staff and students while observing the school's inclusive educational approach. They expressed admiration for the supportive environment and innovative teaching methods that define Harmonize's ethos.

Beyond the classroom, the German educators experienced the rich cultural heritage of Liverpool. They visited several of the city's iconic landmarks, including the *Royal Albert Dock*, *The Beatles Story*, and *Liverpool Cathedral*. These excursions provided insight into Liverpool's vibrant history and community spirit.

The newly signed agreement reflects a commitment to fostering international understanding and collaboration. Both schools look forward to future exchanges that will provide valuable educational and cultural experiences for students and staff alike. This visit not only strengthened institutional ties but also inspired a shared vision for inclusive, globally minded education.
